

Procedure followed in Decision Making Process

[Section 4(1) (b) (iii)]

The Projects requiring compliance to technical expertise which may in turn have an implication on the contract specifications as well as agreements are placed before a specifically constituted Technical Advisory Committee (TAC). The role of a TAC is to give recommendation to IPSCDL for all deviation, extra and substitution items which may crop up during execution of various projects, examine and scrutinize the Estimate which may be technically sound prepared by the Consultant for the project before inviting tenders/projects.
